

## 2010 ANNUAL REPORT CHILDREN'S HOSPITAL PROGRAM OF 2008

### PROGRAM OVERVIEW

On November 4, 2008, California voters passed Proposition 3 enabling the State of California to issue \$980 million in General Obligation bonds for the Children's Hospital Program. Under California Health and Safety Code, Sections 1179.50-1179.72, the purpose of the program is to improve the health and welfare of California's critically ill children, by providing a stable and ready source of funds for capital improvement projects for children's hospitals. The California Health Facilities Financing Authority (CHFFA) is responsible for administering the program.

Thirteen children's hospitals in California are eligible for funding. Eight are private nonprofit hospitals and five are University of California hospitals. Grant awards for non-University of California children's hospitals are limited to \$98 million, less costs of issuance and administrative costs. Grant awards for University of California children's hospitals are limited to \$39.2 million, less costs of issuance and administrative costs. Costs of issuance are \$0.75 per \$1,000 of the authorized grant award and administrative costs are \$5.00 per \$1,000 of the authorized grant award.

A summary is presented directly below, and detail for each hospital follows.
